NEW !

STUDIOMASTER A200

ROOM SPEAKER

ALL-ROUND TALENT WITH PREMIUM SOUND

Stand-alone, stereo-setup or multiroom

The new **STUDIOMASTER** A200 offers true studio sound quality for an impressive listening experience. Thanks to the integrated bass reflex technology, it also impresses with rich sound in the low frequency range.

Easy operation - both directly on the device and via the Revox Multiuser App. The control panel and the integrated display allow you to control and access various music sources and personal favorites at any time.

The speaker can be used in battery or mains operation.

It is equipped with the Revox Multiuser 3.0 software and can therefore be integrated into a multiuser | multiroom audio solution for several rooms - simply via LAN or WLAN.

Here you will find the technical data for the A200.

BENEFITS:

- Compact active speaker for the living room and on the go
- True studio sound quality
- Streaming via WLAN, Bluetooth, LAN and AirPlay 2
- Easy operation on the device or via the Revox Multiuser App
- Integrated display
- Quick access and easy control of music sources on the device
- Stereo solution with another A200 or the **STUDIOART** P100
- Integration into a multiuser 3.0 audio solution
- Battery and mains operation enabled

REVOX MULTIUSER APP

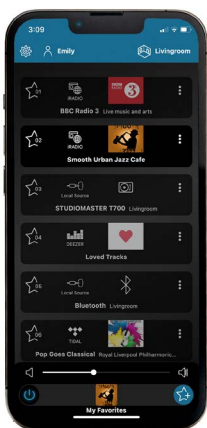

The **STUDIOMASTER** A200 can be controlled with the Revox Multiuser App.

With this app, every user always has their favorites directly on their personal start page of the app. They can create their own user profile and make individual settings and define their personal favorites. All audio sources can be selected as favorites and users can also create their own playlists.

With the easiest operation - worldwide.
